Here is what is in that folder. Not a huge list so my guess is there is a lot missing.

**Subject:** Fw: our record

I am following up on this missive from Karen a few months ago.

What I take from this is that there is a chunk of relevant EPA correspondence that is on the Water Division "G user share", and that neither I nor Erin can access it.

Given that I am in the midst of clean up hell, and in advance of our shift away from Lotus Notes plus the upcoming move, I would like to make sure that I have access to these files.

SOoooo, can I impose on you, Valentina, whenever you have time in the next couple of weeks or so, to go into the G user share and find the file that has those Karen historical letters and forward them to me and to Erin. I'm hoping they are all in one place so that they are easy to find and send (but I am also accustomed to having my hopes of organizational nirvana dashed against the rocks of reality.)

Subject: our record

As we will be sending a series of comment letters to the Board over the next several months, I'd like to ensure we all know what we've already said over the years. I had intended much of this to be on our website but in looking for something today, I noticed that not many of our comments to the Board are there. We can fix this eventually. In the meantime, as I go through my files, I am putting final letter/emails on G:user share, under MISC, in a file labeled BayDelta.

I also put Bruce's recent draft of our next letter there (its the only thing that isn't a PDF).

I realize this doesn't help Tom or Erin but I don't know what to do about that. They are both pretty good at keeping their own files.
